Abstract	v
1. Introduction	1
1.1 Rationale for this research and why Marel Food Systems was selected.....	1
1.2 What is an emerging market? And what are political and commercial risks?.....	3
1.2.1 Emerging markets	3
1.2.2 Political (non-commercial) and commercial risks	4
1.3 Availability of risk mitigation instruments from International Financial Institutions (IFIs) and the focus on Export Credit Agencies (ECAs).	5
1.3.1 International Financial Institutions (IFIs)	5
1.3.2 Export Credit Agencies (ECAs).....	7
1.4 Objectives and research questions	9
1.5 Other related studies and knowledge gap filled	10
1.6 How is this study organized and implemented?	10
2. Theoretical review	13
2.1 Political and commercial risks in emerging markets	13
2.1.1 Political risk.....	13
2.1.2 Commercial risk	15
2.2 Are there any economic justifications for government involvement in trade finance?	18
2.3 Some criticism on ECAs in the literature	19
2.4 The role of ECAs during the current economic and financial crisis.....	20
2.5 Foreign entry modes for Multinational Enterprises (MNEs).....	21
3. Methodology.....	25
3.1 Rationale and limitations	25
3.3 Scenario building	28
3.4 Scenario analysis and assessment	29
4. Country brief, market analysis and assessment of Vietnam´s food processing industry.....	31
4.1 Country brief for Vietnam	31

4.2 Market overview of livestock and fisheries sectors	33
4.2.1 Livestock industry (Pork, Poultry, Red meat).....	33
4.2.2 Fisheries industry	41
4.3 Market analysis	44
4.3.1 Buyers' characteristics	44
4.3.2 Competition analysis	61
4.3.3 SWOT analysis for Marel in Vietnam.....	69
4.4 Preliminary conclusions, operational suggestions and rationale for further case study.....	73
4.4.1 Conclusions for the market research	73
4.4.2 Analysis of possible expansion and operational suggestions for Marel in Vietnam	75
4.4.3 Rationale for further case study	86
5. Case study report, scenario analysis, and success stories	87
5.1 Case selection and the introduction of the four cases	87
5.2 Scenario analysis based on findings from the four cases	97
5.2.1 Scenario 1: Buyer Credit Guarantee.....	97
5.2.2 Scenario 2: Supplier Credit Guarantee	101
5.2.3 Scenario 3: Export Loan.....	104
5.3 Success stories in using ECA's instruments	107
5.3.1 Olam International Limited and the use of Buyer Credit Guarantee from Danish ECA - EKF – for a manufacturing facility in Vietnam (2009).	107
5.3.2 A Jordanian company namely Modern Cement & Mining Company, and the use of Export Loan and Buyer Credit Guarantee from Danish ECA – EKF (period of credit: 2010 to 2017).....	108
5.3.3 Grain and seed exporter Nibulon Company in Ukraine used EKF's Buyer Credit Guarantee to borrow money from a Western European Bank at a far lower interest rate than in Ukraine.	109
6. Discussions and conclusions.....	111
6.1 Answering the research questions, interpretation and evaluation.....	111
6.2 Limitations of the study	115
6.3 Need for further research	116
6.4 Other related studies and knowledge gap filled	117
6.5 Conclusions.....	117
References.....	121

Annex 1: Questionnaire to the 22 largest Vietnamese fisheries processors in summer 2011	130
Annex 2: Field trip questionnaire sent to the four selected cases/companies	132
Annex 3: Interview questions sent to ECAs of Denmark, the Netherlands, Singapore and Sweden	134
Annex 4: Entire itinerary of the field trip (from November 10 to November 30, 2011).....	139
Annex 5: Meetings and interviews implemented during the whole year when the thesis was written	142
Annex 6: Slaugtering households & points	144
Annex 7: Wet markets in Vietnam.....	145
Annex 8: Some photos in processing factory.....	146
Annex 9: Photos of the four selected companies	147
