## Chapter 1: Introduction

1.1 Research question  
1.2 Purpose of the study  
1.3 Background to the study  
1.4 Significance to nursing and the researcher's position  
1.5 Summary

## Chapter 2: Literature review

2.1 Introduction  
2.2 Literature search  
2.3 Key terms  
2.4 Literature review

- 2.4.1 The experience of living with an incurable, life-threatening disease  
- 2.4.2 Influences on perceived quality of life when living with incurable, life-threatening disease and facing impending death

2.5 Summary

## Chapter 3: Research design: methodology and methods

3.1 Introduction  
3.2 Philosophical underpinnings of the study

- 3.2.1 The ontology and epistemology of phenomenology

3.3 Methodology and philosophical underpinnings

- 3.3.1 Phenomenology  
- 3.3.2 The Vancouver School of Doing Phenomenology

3.4 Methods used for sampling, data collection and analysis

- 3.4.1 Sampling  
- 3.4.2 Data collection  
- 3.4.3 Data analysis

3.5 Trustworthiness, rigour of the study

3.6 Ethical issues

3.7 Summary
Chapter 4: Data collection and analysis

4.1 Introduction
4.2 Access and permission for data collection
4.3 Data collection and analysis
  4.3.1 Selecting co-researchers
  4.3.2 Collection and analysis of data
4.4 Ethical concerns
4.5 Summary

Chapter 5: Findings

5.1 Introduction
5.2 A phenomenological description
  5.2.1 The experience of living with an incurable, life-threatening disease
  5.2.2 Positive and negative influences on perceived quality of life
5.3 The lived experience of living with an incurable, life-threatening disease
  5.3.1 Personal reaction
    5.3.1.1 Mixed initial response
    5.3.1.2 Anger
    5.3.1.3 Psychological distress / depression
    5.3.1.4 Anxiety attacks / existential crisis
    5.3.1.5 New view of life, inner strength
  5.3.2 Social effects of the disease
    5.3.2.1 Positive effects on relations with family and friends
    5.3.2.2 Negative effects on relations with family and friends
    5.3.2.3 Decreased ability to work
    5.3.2.4 Poor financial situation
  5.3.3 Negative physical effects of the disease or the treatment
    5.3.3.1 Problems with fatigue
    5.3.3.2 Pain
    5.3.3.3 Eating / digestive problems
    5.3.3.4 Cardiovascular problems
    5.3.3.5 Other physical problems
  5.3.4 Resources
    5.3.4.1 Fighting back
    5.3.4.2 Conscious changes in attitude toward life
