

attempt #9 - bagassx

this is an attempt to learn how to die.
an invitation to waste time together.

attempt#9 - bagassx is the latest in a series of attempts, developed over the course of the MFA Performing Arts 2017/18 cycle at the Iceland University of the Arts.
Each of the nine attempts have been a part of a continuous effort to put an end to the idea of the individual. Together, a series of actions that each work to dislodge the self and dismantle identities.
